

Wherever You Are

Ben Rector

Jenny's saving, got her own apartment
It's a big old world, she's gonna find a way
He said call me if you've ever lost it
And he cried as he watched her drive away

Wherever you go
Know that you're never alone
You're forever in my heart
And the moments you need me
No distance could keep me
I will be wherever you are

You could be all the way across the ocean
You might just feel a million miles from me
It don't matter baby I'll come running, oh
I will do anything to make you see

Wherever you go
Know that you're never alone
You're forever in my heart
And the moments you need me
No distance could keep me
I will be wherever you are

And you find pain when you fall down and you hit harder times
Just call my name, I'll always be right by your side

Wherever you go
Know that you're never alone
You're forever in my heart
And the moments you need me
No distance could keep me
I will be wherever you are

Wherever you go
Know that you're never alone
You're forever in my heart
And the moments you need me
No distance could keep me
I will be wherever you are
Wherever you are
I'll be wherever you are
I'll be wherever you, wherever you
Wherever you are
