

Without You

Ben Rector

It's a late night
On a lonely street
I can't hide
I can't hide

See the sun rise
The truth is waking up in me
I can't hide
I can't hide

Doesn't matter where I go
When I'm without you I am low
Without you
Without you
I've been low and lost without you

Thought that I could make it right
That there was something I could find
Without you
Without you
I've been low and lost without you

You can't see
There's people everywhere
You can't see
You can't see
That inside me
There are things that I can't bear
You can't see
Inside of me

Doesn't matter where I go
When I'm without you I am low
Without you
Without you
I've been low and lost without you

Thought that I could make it right
That there was something that I could find
Without you
Without you
I've been low and lost without you

Because I've been low and lost without you
Because I've been low and lost

I thought that I could make this right
The only thing that I could find
Is that I've been low and lost without you by my side
I've been low and lost without you
Been low and lost without you

Doesn't matter where I go
When I'm without you I am low
Without you
Without you
I've been low and lost without you

Thought that I could make it right
That there was something that I could find
Without you
Without you
I've been low and lost without you

Because I've been low and lost without you
Oh, 'cause I've been low and lost without you
Because I've been low and lost without you
Been low and lost without you
