Nothing in life is free (SAVE!)
Nothing except for me (SAVE!)
How can I call you my brother if you wouldn't fight with me? (Fight!)
I want a new life, so all these new heights are really enticing me
I get to playing with definitions
We carry static like television
With the big back, get back, kick back doors if he play with my percentage (Ooo!)
My buddy was digging up in his nose with that fake white, baby; Kylie Jenner (Ooo!)
I'm a nice nigga, not a nice nigga
I ain't running, I'm AMG not a sprinter
I ain't coming to play 'less playin wit' her
If I'm gunning yo' way, hit the deck and dizzuck
Then I pick up my car keys nigga peace
She my lil' star seed, we get deep
She pull up with scarred knees, she a freak
My shorty 'bout blue face like mystique
She got her a new waist; new physique
But she wanna work out, shawty cheap
I bought her bouquet for the week
My pockets on soufflé
It's a new day
Niggas dayroom; that mean sweet
I'm in ya' bae room it's a suite
They know I conceal arms like a sleeve
They know I could deal harm when it's beef
They notice the real charm when I speak

Bridge! (Bitch!)
One call hit the kill switch!
