

Power

Ben Reilly

Now this is power
Love is power
Money is power
Love is power
Now this is power
Money is power
Love is power
Money is power
I got all this power on me
I got all this power on me
Like a motherfucker

Like a motherfucker!
Power on me like a motherfucker
Hundred thousand on me like a motherfucker
Ride up go and see about a motherfucker
Power on me like- SAVE!
My life changed
You can't write this make
I wanted power for exchange for this nights dismay
Maybe a couple years from now I'll see the price this paid
I take pride in the nights I laid
Bare my chest like the female titan
Mumbling with anyone worth fighting
But remember, them niggas is nothing like him
Despite a man without the hyphen
Controlling, manipulating
I'm good where I've been
Afraid of heights into my frame of mind
God hating
I'm up falling
My fault
I find good when I'm all in
The baddest bitches that we can't get off 'em
The type of women that you can't get often
My intuition like a campus office
Please offer wisdom every rainy day
Patience over weariness
And even rage
Pay my over stimulus with even rates
This energy is center stage
Pushing my power forward
Like Kenny G tryna get a ring a second time
I'm from a different time
Sneakers on power lines
"Money, power, respect" the dialect
My niggas can't retire
Now take it back to them lies you niggas fantasize
Bitch ass niggas
With great power comes a lot of great shit you can't afford
Responsibility
New abilities
(Yeah)
(Power on me like a motherfucker)
(Heroman!)

And there you have it, true believers! (Save!)

This was only the beginning of a long road ahead for our hero
A boy turned man
Transformed by the world around him
Nothing comes easy
And through our hardships, we discovered that lesson
Hopefully, our hero can learn to embrace his early days of success
Having learned, in the most tragic ways
That with great power
There must also come great responsibility...
Excelsior!
SAVE!
