And we back again ladies and gentlemen, boys and girls

It's ya' boy capital N

And um...

I came back around this time cause I've been searching for this young lady (searching)

Through and through, day in, day out (yeah)

It's not Yoni, it's another one

She a beautiful brown bird with a nice pair of wings on her

And if you happen to come across her just play this freelance (Charlie side) for me

You know I'ma always respond to a (chirp)

Spread your wings we could weave through distortion

But I can't validate your importance

You know this world is yours, you've got to want it

Scanning for your love, I need some more of it

Hoping you pick up, this shit cordless

I struggle with my trust, I cannot force this

I think I feel a buzz on your coordinates

Scanning for your love, I need some more of it

If you all in, I'm all in witcha

If you fall, then I'm falling witcha

Wings start to fail, we can skydive

We could parasail at the right heights

Shawty she on go, don't do complacency

I just wish I had you in LA with me

My world under pressure don't you play with me

Booked a room for your heart, hope it's vacant please

Scanning

The feeling's too hard to evade

Shawty just one beep away

Heavy on your sonars baby show me the way

Been a couple days since ya called me
Wanna plant the seeds
Flower in the bloom
What's ya fantasy?
I know I'm in your dreams
When you go to sleep
Stop wasting time on me
Show me what I'm missing if you wanna be
Throw out all the spades
Show me all your cards
If you really 'bout it
On the east side- Decatur, where ya be?
I'll show you 'round my town
And give you what you need (Bring that in)

Spread your wings we could weave through distortion
But I can't validate your importance
You know this world is yours, you've got to want it
Scanning for your love, I need some more of it
Hoping you pick up, this shit cordless
I struggle with my trust, I cannot force this
I think I feel a buzz on your coordinates
Scanning for your love, I need some more of it

You ain't gotta look for me when you call I- yea
