

# If I Let The Ladder Down

Ben's Brother

If I Let The Ladder Down

Get me out of bed  
The cars are out, and the dogs are barking in my head  
In the street below  
You're staring up at my apartment  
Wondering where my heart went  
Wondering where the story goes

If I let the ladder down  
If I let the ladder down  
If I let the ladder down  
Would you stand on the ledge with me?  
Run to the edge and take this leap  
If I let the ladder down  
If I let the ladder down

Yell, at me for hours  
We both know that you're calling up to king of sour  
After taste  
I was a wreck before I knew you  
Girl, you better screw your  
Courage to the sticky place

If I let the ladder down  
If I let the ladder down  
If I let the ladder down  
Would you stand on the ledge with me?  
Run to the edge and take this leap  
If I let the ladder down  
If I let the ladder down

Oohh, ooohhh  
Oohh, ooohhh

If I let the ladder down  
If I let the ladder down  
If I let the ladder down  
Would you stand on the ledge with me  
Run to the edge and take this leap  
If I let the ladder down  
If I let the ladder down  
If I let the ladder down  
If I let the ladder down
