

What If I

Ben's Brother

What if I'm wrong?
And you figure it out?
That we just don't belong
And you're better off without
Me?
The minute you're gone
I bet it would dawn on me
Suddenly, suddenly

So what if I
What if I fall?
Would you hate me?
would you let me go?
What if I realised
You're the only one
Who makes me whole?

Blundering on
Making no sense
Without any thought
To the consequences
One of these days
The truth will be facing me
And I will find a way back to you again

So what if I
What if I fall?
Would you hate me?
Or would you take it on?
What if I realised
That you're the only one
Who makes me
Who Makes me
Who makes me
Whole?

Yeah Yeah

Who makes me whole now
Oh

What if I
What if I find
Everything that I want
The minute you're gone
I bet it would dawn on me
Suddenly suddenly

So what if I
What if I fall?
Would you hate me?
Or would you take it on?
What if I realised
That you're the only one
Who makes me
Can make me
Who makes me

Whole?
