

# What If I

Ben's Brother

What if I'm wrong?  
And you figure it out?  
That we just don't belong  
And you're better off without  
Me?  
The minute you're gone  
I bet it would dawn on me  
Suddenly, suddenly

So what if I  
What if I fall?  
Would you hate me?  
would you let me go?  
What if I realised  
You're the only one  
Who makes me whole?

Blundering on  
Making no sense  
Without any thought  
To the consequences  
One of these days  
The truth will be facing me  
And I will find a way back to you again

So what if I  
What if I fall?  
Would you hate me?  
Or would you take it on?  
What if I realised  
That you're the only one  
Who makes me  
Who Makes me  
Who makes me  
Whole?

Yeah Yeah

Who makes me whole now  
Oh

What if I  
What if I find  
Everything that I want  
The minute you're gone  
I bet it would dawn on me  
Suddenly suddenly

So what if I  
What if I fall?  
Would you hate me?  
Or would you take it on?  
What if I realised  
That you're the only one  
Who makes me  
Can make me  
Who makes me

Whole?
