Memory
Remembering
Even after time passes
My memory
Holding it in
Even when tears come
In the scattered memories
You alone remain
Love in my memory
Like a star
Even if you can't reach my heart
Already in my dreams
I see your face
Love in my memory
Like the snow
You build up in my heart every day
I love you, I remember you
Only you are my memory
Memory
I'm lost, looking for
The pieces of the memories
It's suddenly
In case you suddenly come to me
I'm prepared
With the small hope
Of seeing you some day
I wait
Love in my memory
Like a star
Even if you can't reach my heart

Already in my dreams
I see your face
Love in my memory
Like the snow
You build up in my heart every day
I love you, I remember you
Only you
If you can hear my voice
Slowly come to me
Love in my memory
Like the stars, you build up every day
I love you, I remember you
Only you are my memory
