

Return to Medusa

Beneath the Massacre

If your eye causes you stumble
Gouge it out and throw it away
Ignore self-amputation
Find out what causes you pain

Witness biological degeneration
And rigidity of the body and mind
Contemporary inflicted stigmas
Self-made obstacle to self-acceptance

Through a mutual agreement
Liberated from an indoctrination
A psycho-sexual warfare
And who are they to say what's immoral?
With such an abusive past

Who are they to say?

Origin and destination
Return to Medusa
Abandoning self to life
Origin and destination
Return to Medusa
Abandoning self to

Refused biped commodity
Obscene gesticulation
Exchange of body fluids
A prehistoric cure for a modern disease

If your eye causes you stumble
Gouge it out and throw it away
Grotesque self-amputation
Is what causes you pain
