

Our Last Road

Beneath The Sky

God gave birth to mankind,
Mankind gave birth to war.
God gave birth to mankind,
Mankind gave birth to war.
These consequences only helps to make a change.
These consequences only helps to make a change.
Our weight of existence is growing smaller with every grave mis
take.

I stay awake, I stay awake...
Now I stay awake, now I stay awake.
Now I stay awake, now I stay awake.
Now... this was our only fate.
This was our last, last road.

One nation, under God
Nation undone... Nation undone...
Nation undone, done, done.
We become undone!
UN-DONE, UN-DONE.

This is my only way to get through,
This is my only way to get through,
This is my only way to get through,
This is my only way
