

What is the fucking point in all of this?

All I ever have are questions with no goddamn answers.

Its boring to live, sad to laugh, and difficult to love.

Disappointment has always been there for me.

I have never held my breath for something good to come around.

Let's just face it.. it doesn't matter how hard I try.

Its never gonna end up the way I pictured it.

Now you ask me..

What was my fucking point in all of this?

I am just sick of it all.

Goddamn me.

For everything dies.

All that we know, all that we see, all of those we love, all of
its gone.
