

Deviant Spine

Benediction

This mindless furnace
One crucible of hate
Inner serpent coiling
Bones grate as they break
From blackened minds
Skeletal machine
Mouldered are the voiceless
Mute, infected screams

Voidless howling
Infernal the bloodline
Cursed bones, increase agony
Rise the deviant spine

In solitude to fester
Fortune's tarot
Consumed and digested
Sucking on the marrow

Voidless howling
Infernal the bloodline
Cursed bones, increase agony
Rise the deviant spine
Hiveworld of anger
A suicidal rate
Fuel to the furnace
We deviate

We deviate

Our bloodied hands and dampened blade
Guiltless to this artwork made
Canvas torn, a blighted skin
Outer madness drawn within

Salt on an open wound

Leech sector, teeth on skin
Parasite malign
Wake up and smell the species
Open wound, deviant spine

Voidless howling
Infernal the bloodline
Cursed bones, increase agony
Rise the deviant spine
Hiveworld of anger
A suicidal rate
Fuel to the furnace
We deviate
