

# Progenitors Of A New Paradigm (feat. Kam Lee)

Benediction

Progenitors awaken  
New paradigm now to behold  
Purebred creations  
Fetid DNA evolving old  
A higher class of villain  
Anti-heroes obliterate  
Future incarnations rise  
To exterminate

The hierarchy, infection prime  
Progenitors of a new paradigm

One driven obsession  
To subjugate  
An empire to build  
A regime spawned a potentate  
Abandoning emotions  
Faceless drones deploy  
No resistance  
Exterminate, annihilate, destroy

The hierarchy, infection prime  
Progenitors of a new paradigm

Recreate the species  
To stand alone

Now to face the bronze  
To regain their throne

Progenitors awaken!  
Progenitors, obliteration!

Testimony awakens  
Conflict has its crimes  
Raging across history  
War's aftermath in time  
One vile supremacy  
Lost acts of attrition  
Strategists eternal  
The science of the mission

The hierarchy, infection prime  
Progenitors of a new paradigm

The alien elite  
Outright manipulations  
So viciously you're obsolete  
Total extermination

Progenitors awaken!  
Progenitors, obliteration!  
Obliteration!
