

## Rabid Carnality

### Benediction

The moon demands the blood  
This desire, slake its thirst  
Under lunar loyalty  
It's my progeny, my world

A damnable life and death  
Wretched curse appeased  
Consuming hearts, hot and raw  
Worship the disease

The underdog genealogy  
Know nothing of my deeds  
Cavalier, man of my word  
But by the moon I'll feed

A damnable eternal life  
Preservation's creed  
Lunatic with sickening lust  
Rhapsodical force feed

Terminology's submission: Behemoth

Stalking through the dark  
No conscience for my crimes  
Worshipping the covert  
To hunt again a thousand times

A damnable life and death  
Wretched curse appeased  
Consuming hearts, hot and raw  
You'll worship my disease  
My disease
