

## acetone

Benedixhion

You just tore a hole in my heart  
I should've known your game from the start  
I'm all alone I need to restart  
Pour acetone all over my scars  
I'm gone  
Nauseas off the oxy  
Fuck the cost  
Whyd you never call me  
Pills popped  
It turns me to a zombie  
I'm so lost  
Nobody can stop me

Life is pain  
I'm feeling like shit  
I don't know why I even exist  
I tried to find a reason  
But I decided living's a bitch  
You don't care at all so I'm faded  
Lost my mind I'm way too sedated  
Can't stop it I'm always failing  
I am not a soul worth saving  
Not a souls worth saving  
I feel like the whole world hates  
I wish you wouldn't play me  
I just really need you baby

I hate the way that I feel  
Life doesn't even feel real  
I'm trapped inside my head again  
These drugs my only friends  
These drugs my only friends  
I'm trapped inside my head again  
I miss you baby  
Won't you come back and save me  
I don't know how to cope without you  
Honestly I'm so blue  
I feel like I'm losing myself when I am around you  
Yeah  
Baby I know  
You don't even wanna take it slow  
Honestly we should just go hit the road  
Maybe do a couple tours  
And do a couple shows  
I just wanna see the world with you  
I just wanna make your dreams come true  
You said that you love me  
Hope you do  
Cause u already know that I love you
