Ay  
Just wait  
I just need a minute  
Jus a lil bit of space  
I been off them pills  
I gotta pop em everyday  
It's all good  
Ay ay ay

Ay  
Just wait  
I just need a minute  
Jus a lil bit of space  
I been off them pills  
I gotta pop em everyday  
It's all good  
I been smokin on em joints n the backwoods  
She jus switch the script up  
Yuh yuh  
This ain't even real love  
Yuh yuh  
You were only playing my feelings like it's a game  
I keep poppin xanax to runaway from my pain  
Yeah I'm numbing all my feelings I'm never gun be the same  
It's already too late  
My mind's trapped inside a cage  
And I won't ever feel okay

Oh oh  
I'm lost  
Won't you please just hold me real close  
I can't get through this life all alone  
I need you  
Think I'm jus a ghost  
I'm see through  
And empty  
I need two more  
Please don't tempt me ah  
I'm in first bitch  
You're a runner up  
I keep grinding  
I can never stop  
It's perfect timing when I'm pulling up  
Ay  
I jus chase that guap  
She said that she love me but didn't guess she a fraud  
I keep all these drugs in my system to stay fucked up  
'Cause I can't trust love  
I gave up on us  
I'll drown in my cup  
'Cause life really sucks  
It really does  
I don't got no time to pause  
No brakes for real  
I keep takin drugs until I'm ill  
  
I just need a minute

Jus a lil bit of space  
I been off them pills  
I gotta pop em everyday  
It's all good  
I been smokin on em joints n the backwoods  
She jus switch the script up  
Yuh yuh  
This ain't even real love
