

## BetterDEAD

Benedixhion

I'm lost in my shadow  
I'm losing this battle  
My brain just keeps rattling  
In my head, it screams at me  
"You're better Dead"  
Fuck this life, I hate it  
Always so sedated  
Godamn I can't fucking take this  
Hope you find a good replacement  
Cuz I'm gone  
I'm so lost  
And I know that you want to help  
But I'm going straight down to hell  
Might as well just end myself  
My life is worthless, I can tell, ugh  
I can tell, yeah  
Might just end myself, yeah, ugh  
Delete my...  
Delete...

Ugh, delete myself  
I'm better dead  
Ain't nothing helps  
Except my meds  
Except my percies, love my 30's  
I know they wouldn't hurt me, ah  
Feel the pain deep within lurking  
For a purpose, I'm still searching  
I'm so lost  
Fuck it all, bitch oh my god  
Why am I still trying?  
All this pain reminds me  
We all fall  
I keep wishing you will call  
But you don't, no not at all
