

BITE

Benedixhion

You said you love me but you jus' don't
Gotta problem with me, let's go
Bite down on it, no oh
Quiet down, won't cha? I won't

I'm done eatin' all my words, yeah
Fuck what you say and what you heard, yeah
I couldn't even give a fuck
Most of y'all be sheep
Ya never even woken up
Fuck I'm running out
I think it's time to hit the plug
I been smokin' on a blunt
While I sip my double cup
Bitch, just shut the fuck up
You're stuck up
I ain't even wanna fuck yuh, I'm out bruh
Had that shawty on my couch damn
Kick her out yeah
Whatchu mean? Shawty whatchu mean?
You told me you'd be loyal but you fucking on my team
That's why I can't trust her
Had to give her to the streets
She ain't ever even love me
She jus' wanna smoke my weed
Been spending all my money
She jus' wanna live for free
Now you been spreading hate
'Cause you could never let me be
You talking like you know me
But you do not know a thing

You said you love me but you jus' don't
Gotta problem with me, let's go
Bite down on it, no oh
Quiet down, won't cha? I won't
You said you love me but you jus' don't
Gotta problem with me, let's go
Bite down on it, no oh
Quiet down, won't cha? I won't
