Benedixhion

I hate being by myself
I know these drugs are bad for my health

I jus want some diamonds on my wrist
Shawty says she loves me
She jus loves it on my dick
I been stackin up my money
No this ain't no counterfeit
Unlike you
It's true
Why you actin all brand new
I feel so stuck I'm always blue
And I got nothing left to lose

Bitch I got my bands by myself
So ima spend it
Cuz ain't no one ever offered their help
Ain't that jus splendid
I make my own money baby
I don't think that you can save me
There ain't nothing left of me
I feel
Like they'll put an end to me
Fuck pills
