

# daydream

Benedixhion

Ca-can you tell me where I'm going baby  
Pre-pretty sure that I been going crazy  
I been living life like its a fucking daydream  
Yeah

It-it-its a fucking daydream  
I feel so numb  
You-you abuse me with your love  
That shit got me so fucked up  
I only feel okay on drugs

You don't wanna love me trust me  
I'm hooked on codependency  
Baby you gotta stay away from me  
I'm crazy  
Nobody is saving me I'm waiting  
For an exit to the next bitch  
Text quick  
Got me feeling fucking restless  
I'm a dead bitch  
Got me screaming fuck it  
Ending the discussion  
Used to feel in love  
But now you got me feeling nothing

Ca-can you tell me where I'm going baby  
Pre-pretty sure that I been going crazy  
I been living life like its a fucking daydream  
Yeah

It-it-its a fucking daydream  
I feel so numb  
You-you abuse me with your love  
That shit got me so fucked up  
I only feel okay on drugs

What the fuck  
I hate you  
This ain't love  
Can't change you  
I can't but  
Ima be fine uh ima be good  
I'm poppin my xans and smoking backwoods  
I should  
Be-be-be fine  
I don't need you in my life  
You don't make me feel alive  
I-I just wanna feel alright  
But-but I think I might fucking die
