

## i feel so empty

Benedixhion

When I sleep at night  
I'm hoping I don't wake up  
'Cause I don't have nobody  
I don't have nobody  
I don't feel alive  
I wish I could just die  
'Cause I don't have nobody  
I don't have nobody

I don't know what I'm doing  
Yeah, I don't know why I'm here  
What's the point in even trying  
When it all ends in failure?  
I cannot keep living life this way  
I hate being like this  
I just want the pain to go away  
I can't keep fighting it

Now my dreams are all so shallow  
It just leaves me feeling hollow  
There's a hole in my heart and it's being filled  
With all of these sorrows

Now my dreams are all so shallow  
It just leaves me feeling hollow  
There's a hole in my heart and it's being filled  
With all of these sorrows

When I sleep at night  
I'm hoping I don't wake up  
'Cause I don't have nobody  
I don't have nobody -

When I sleep at night  
I'm hoping I don't wake up  
'Cause I don't have nobody  
I don't have nobody  
I don't feel alive  
I wish I could just die  
'Cause I don't have nobody  
I don't have nobody
