

# I'm Lost Without U

Benedixhion

I lost myself in my shadows  
And now my graves been dug so shallow

You told me that you'd always care  
But I feel like your never there  
So when you kiss me I just stare  
And to true love, we can't compare

I won't stay with you anymore  
'Cause you left me here  
Crying on the floor  
I hated you but loved you so much more  
So I told myself  
That we could make it work  
But I know myself  
I tend to make things worse  
Now I hate myself  
'Cause I just made you hurt  
And nobody helped  
When I was in the dirt  
I might kill myself and fucking leave this earth

You told me that you'd always care  
But I feel like your never there  
So when you kiss me I just stare  
And to true love, we can't compare

You told me that you'd always care  
But I feel like your never there  
So when you kiss me I just stare  
And to true love, we can't compare
