

Never made it back, never made it back
Now I hate my life there's no saving that
Never made it back, never made it back
Now I hate my life there's no saving that

Never made it back, never made it back
Now I hate my life there's no saving that
I'll just slit my wrists, where's my razor at?
I just waste my time and I'm fine with that
Never made it back, never made it back
Now I hate my life there's no saving that
I'll just slit my wrists, where's my razor at?
I just waste my time and I'm fine with that

Why you stab me in the back?
Guess your love was just an act
Wish I didn't want you bad
'Cause you treat me like I'm trash
Hit a hundred on the dash and I really hope I crash
I been burning through life fast, now I can't wait 'til it's passed
Now I'm living to forget, every night when I'm in bed
I can never fucking rest, 'cause you're always in my head
You're in my head, lil' bitch, fuck what you said, lil' bitch
I'm fucking dead, lil' bitch, I'm fucking dead
You just left my life now it's a fucking mess

Never made it back, never made it back
Now I hate my life there's no saving that
I'll just slit my wrists, where's my razor at?
I just waste my time and I'm fine with that
Never made it back, never made it back
Now I hate my life there's no saving that
I'll just slit my wrists, where's my razor at?
I just waste my time and I'm fine with that
