

Feels like love but I know it isn't  
I'm so damn numb who am I kidding

Feels like love but I know it isn't  
I'm so damn numb who am I kidding  
I hate life I wish that I didn't  
I'm poppin percs just to fix it  
But I know that I'll never fit in  
An outlier to the human race  
I'm a lost soul and I'm drifting  
I wish that I could just be erased

I hate the me that I have become  
I'm just a fiend and I need more drugs  
Off a thirty I'm so fucked up  
I'm running out I best hit the plug  
I took a journey with no way back, ay  
I got money I'm chasing so I'ma make that, ay  
She just pass me a swisher so I'ma face that, ay  
If you ain't talkin benjis then just get outta my face

Please let me lie here  
I wanna die here  
I'm so sick of this life  
I wanna give into my fears  
Please let me lie here  
I wanna die here  
I'm so sick of this life  
I wanna give into my fears

Feels like love but I know it isn't  
I'm so damn numb who am I kidding  
I hate life I wish that I didn't  
I'm poppin percs just to fix it  
But I know that I'll never fit in  
An outlier to the human race  
I'm a lost soul and I'm drifting  
I wish that I could just be erased

Pain in my head guess I'm broken  
I'm already dead they don't notice
