

You were always so fake
You're so toxic
Always try the same face
Never gave a damn, babe
You just wanna play games
I'm outta options
I'm fuckin' done bitch
Its your Fault
Don't you fuckin' blame me
I'm so done
I don't give a fuck about watch you want
For real
I can't take this shit no more I need like 5 more pills
Till I'm feeling it
I just made a battle with percies to try and fill in
Oh woah, oh my god I'm taken
Always geekin'
I live in slow-mo
I don't even really know what to do tho
I'm so damn lost
Yeah, like what the fuck
Yeah, can't sober up
Oh well
I'll see you down there
In hell
Yeah yeah
Til I'm feeling it
Nah nah

You were always so fake
You're so toxic
Always try the same face
Never gave a damn, babe
You just wanna play games
I'm outta options
I'm fuckin' done bitch
Its your Fault
Don't you fuckin' blame me
I'm so done
I don't give a fuck about watch you want
For real
I can't take this shit no more I need like 5 more pills
