

When does tha pain stop  
It don't  
Wish I still had a soul  
Left inside these hallow bones  
But I'm losing control  
So I mix percs with lexapro  
Still don't no better though  
God I'm such a fuckin fool  
Should prolly let you go

Tell me  
When does it stop hurting  
Every night with death I'm flirting  
It's a painful end  
For a painful life  
Guess that seems about right  
Is this what I deserve  
Please take me from this earth  
I can't take anymore  
No  
I can't take it no more  
Oh

When does tha pain stop  
It don't  
Wish I still had a soul  
Left inside these hallow bones  
But I'm losing control  
So I mix percs with lexapro  
Still don't no better though  
God I'm such a fuckin fool  
Should prolly let you go
