

## nightmare

Benedixhion

I'm off the xans  
No one ever really loved me like they said  
I don't know what's left to do  
I think I lost my soul when I lost you  
I'm fucking broken  
Ohhh  
I'm fucking hopeless  
Ohhh

I don't know what's left to do  
I think I lost my soul when I lost you  
I'm fucking broken  
And I'm so motherfuckin hopeless  
I won't survive  
All these pills are gunna end my life  
I'm stuck  
Baby you can't save me bring me drugs  
Life is not daydream it's more like a nightmare  
I was really hoping that maybe you might care  
I was really hoping that maybe you might care  
Might care  
Life's a nightmare  
I was really hoping that maybe you might care  
Might care  
Life's a nightmare

I don't wanna be alive no more  
Everyday is pain my minds at war  
Can't take it  
I feel like I'm broken baby  
Don't think you can save me
