Benedixhion

Yeah, I keep asking is this really love
Shawty tells me I should sober up
I don't know if I can take this
I can't take another fake bitch

Big bands in my hand
I'll count it on my own
Ain't need no fake friends
I'm better off alone
Yeah
Why'd you stab me in the back
Again
Wha-what the fuck is up with that
Goddamn
You don't really love me
Can you just tell me the truth
You're dreaming of my money
While I'm stuck dreaming of you
Oh
It's a lie
You never cared
I don't know why
You're never there

Put my money in the bank bitch, Yuh
Lil shawty made a lane switch, Yuh
Pass the blunt I think they laced it, Yuh
But you know I'm still gun face it, Yuh

Basic
You're really basic
I can't fucking take this
You make me so sick
Left me on the pavement
Tho-thought you were my friend
I'm always sedated
I fucking hate it
Cause you're so basic
You're really basic
I can't fucking take this
You-you make me so sick
Left me on the pavement
Thought you were my friend
I'm always sedated
I fucking hate it

Big bands in my hand
I'll count it on my own
Ain't need no fake friends
I'm better off alone
Yeah
Why'd you stab me in the back
Again
What the fuck is up with that
Goddamn
You don't really love me
Can you just tell me the truth

You're dreaming of my money
While I'm stuck dreaming of you
Oh
It's a lie
You never cared
I don't know why
You're never there
