Benedixhion

U-used to think that it was something
Guess not
Then you left me like I'm nothing
What the fuck
That shit hurt like a concussion
U-uppercut bitch
You ain't talking money that's the end of the discussion
You just cut me deep
You just let me bleed
Goddamn
What the fuck-fuck-fuck

I'm fucked up
I just bought a hundred xannies from the plug
Holy shit and now I'm sippin on this rum
I must have death wish
Think I'm dead bitch
Take me from this earth
Cause I can't take all-

U-used to think that it was something
Guess not
Then you left me like I'm nothing
What the fuck
That shit hurt like a concussion
U-uppercut bitch
You ain't talking money that's the end of the discussion
You just cut me deep
You just let me bleed
Goddamn
What the fuck-fuck-fuck

U-used to think that it was something
Guess not
Then you left me like I'm nothing
What the fuck
That shit hurt like a concussion
U-uppercut bitch
You ain't talking money that's the end of the discussion
