

## A Little While

BENEE

I saw you from a far  
Asked if I wanted some of your cigar  
But I don't smoke  
Think you wanna know me

Driving inside your car  
You put your hand around my heart  
But I'm afraid  
You'll try to control me

And if I stay a little while  
How long will you make me wait your call?  
Make it warmer for me, yeah  
'Cause I'm cold

I try so hard to talk to you  
But I stay quiet 'cause I'm confused  
I'm not used to guys like you  
I'm so used to being used

You think that I'm bizarre  
I wanna know just who you are  
And what you're like, yeah  
What you're like inside, oh

You say I'm not the same as all the girls you used to date  
And this time you really wanna try

And if I stay a little while  
How long will you make me wait your call?  
Make it warmer for me, yeah  
'Cause I'm cold

I try so hard to talk to you  
But I stay quiet 'cause I'm confused  
I'm not used to guys like you  
I'm so used to being used
