

# All The Time

**BENEE**

My mind explodes, my body starts to feel controlled  
I lose a hold, this place it starts to turn so cold  
Lungs wrap from within, I cannot hear anything  
You're sayin' somethin', I can see that your mouth's movin'

Your eyes are red, I can see you're knocked out too  
What is this room? I can't take my eyes off you

Spaced out all the time  
I'm fallin' behind  
I'm spaced out all the time

I've had too much, can feel my body 'bout to give up  
What is this stuff? I think that we stuffed it up

Your eyes are red, I can see you're knocked out too  
What is this room? I can't take my eyes off you

Spaced out all the time (Time, yeah)  
I'm fallin' behind (Fallin', fallin')  
Spaced out all the time (Spaced out all the time)  
I'm fallin' behind  
Spaced out all the time
