

# Doesn't Matter

BENEE

Mmm, what's it like  
To not have to think about it?  
It seems nice  
Not a care, so quiet  
Maybe I'm consumed by my mental  
Does it hurt me? Maybe, oh, well  
If I medicate, would it help me?  
'Cause I'm hurting, I feel unwell

You know how I feel  
You've told me before  
Although my fears are real  
The things I fear are not

I know it doesn't matter  
I know it doesn't matter  
None of this even matters  
I know it doesn't matter  
I know it doesn't matter  
None of this even matters

Check that  
Have to check that the oven is off  
This happens every night  
Sometimes you tell me off  
Maybe I'm consumed by my mental  
Does it hurt me? Maybe, oh, well  
If I medicate, would it help me?  
'Cause I'm hurting, I feel unwell

You know how I feel  
You've told me before  
Although my fears are real  
The things I fear are not

I know it doesn't matter  
I know it doesn't matter  
None of this even matters  
I know it doesn't matter  
I know it doesn't matter  
None of this even matters

You say  
"Why are you thinking these things?" (These things)  
How do I even explain? (Explain)  
"You're scared of almost everything" (Everything)  
I know and it's really a drain (A drain)  
Hide under a pillow (Pillow)  
Something's at the window (Window)  
I'm too scared to check though  
Now I'm crossing my fingers  
Flicking off the switches  
Is my house filled with witches?

What is my mind?  
What is it like  
To unwind?

What's it like?
