

Doomsday

BENEE

I think we'll meet by the lake
On a Tuesday
It's a long way
Chasing blue
I think I'll leave it to fate
What would you say?

I feel sick to tell the truth, why-
Tell the truth, why wouldn't you?
Your text just ruined everything, babe
I've just had a really bad day and

I am complicated
Not easy when I'm frustrated
Scramble into a ball
Take your exit
Nice to know you
I am complicated
Not easy when I'm frustrated
Scramble into a ball
Take your exit
Nice to know you

I think I'll wait in the rain
Outside your place
By the ocean
It's a doomsday
And if it ended today
What would you say?

I am not myself now
Keep regretting everything
Accidents keep happening
What do I do at all?
If I saw a polar bear
Then it would be too late
Let's just meet by the lake
At least just for my own sake

I am complicated
Not easy when I'm frustrated
Scramble into a ball
Take your exit
Nice to know you
I am complicated
Not easy when I'm frustrated
Scramble into a ball
Take your exit
Nice to know you

I am complicated
Not easy when I'm frustrated
Scramble into a ball
Take your exit
Nice to know you
