

Green Honda

BENEE

That was a waste of fucking time
You were a waste of fucking time
Since I left you I've been great
You were my biggest mistake

So save your last breath, hold it in
I'd rather not have to listen
It's safe to say I am surprised
You've made a huge mess of my life

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper

All your friends are fucking fake
They're all too boring and too straight
I cringe at everything they say
And you're just like them boy don't play

You've really broken everything
You've pinned me down, no self defence
My heart was really on the line
You hung it up outside to dry

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper

Pull up, pull up, pull up
(Honda)
Pull up Honda pull up

Pull up, pull up, pull up

Pull up, pull up, pull up

(Pull up)

I pull up in my Green Honda
To tell you that I don't want ya (pull up)

I'm having all these guys over
A baddie now a show stopper stopper stopper stopper yeah

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper

And now I pull up in my Green Honda
To tell you that I don't want ya

I'm having all these guys over
A baddie now a show stopper
