

Light

BENEE

I can show you love is kind
Just need access to your mind

I want your heart
Wanna get it right from the start
If I break it, take me down
Hold me tightly, lay me down
Cause with you I feel therapy
Thought I didn't need someone
And I won't let you go
Keep things under control

Make it feel like summer all year long
Make it feel like summer
Make it feel like make it feel like summer
Make it feel like summer
Make it feel like make it feel like summer

I could only roll with you
Only roll with beautiful
It could be so meaningful
It could be no better view
High on the road
Time moving slow
I wanna know
Can you see you glow

Can you feel the heat
You be so elite
Sand between my feet
With you I'm complete

Can you feel the heat
You be so elite
Sand between my feet
With you I'm complete

Only one
Like the sun
Shining bright
You the light
You the light
You the light
Only one
Like the sun
Shining bright
You the light
