

Marry Myself

BENEE

We've been out all night in your fast car
Yeah, the moon's full lights up the roads path
Turn the music up, roll in, car pulls up
You've set this up for us, yeah this is all for us

Sitting under pear tree
A coyote is staring at me
Seems like a scene from a movie
Seems like a scene from a movie

I turn around and to my surprise
You're on one knee
Beady eyes

What are you doing
No for real
What are you doing

Put the ring down
I wanna marry myself
Give that ring to somebody else
I wanna marry myself
What is this even about
I wanna marry myself
I wanna marry myself
Give that ring to someone else

So I run away from you
'Cause I don't wanna do this now
Never made it seem like I'd want to
Never held my hand out

I turn around and to my surprise
You're on one knee
Beady eyes

What are you doing
For real
What are you doing

Put the ring down
I wanna marry myself
Give that ring to somebody else
I wanna marry myself
What is this even about
I wanna marry myself
I wanna marry myself
Give that ring to someone else

Ooh
Ooh
Ooh
Uh

Oooah
Oooah

Put the ring down
I wanna marry myself
Give that ring to somebody else
I wanna marry myself
What is this even about
I wanna marry myself
Ew put the ring down
I wanna marry myself
