Monsta

BENEE

I'm tryna fall asleep
Something doesn't feel right
A chill crawls up my skin
A tingling down my limbs
A shadow in the night
My God, it gave me such a fright
I see him standing right outside
His face is red, his eyes are white

What is it that he wants from me?
Maybe he just feels lonely
What is it that he has in mind?
Why has he come here at this time?

The monster takes me away
From my safe space into the night
The monster takes me away
From my safe space into the night

Wake up in a magic cave
Here's me trying to be brave
But then instead of eating me
He offers me a blueberry

What is it that he wants from me?
Maybe he just feels lonely
What is it that he has in mind?
Why has he come here at this time?

The monster takes me away
From my safe space into the night
The monster takes me away
From my safe space into the night

The monster walks me to a pot
It seems like time is all I got
He pops my head inside
I'm not ready to die
Instead of burning out alive
I see my room flames rising high
He wasn't tryna hurt me
Was only tryna save me

The monster takes me away
From my safe space into the night
The monster takes me away
From my safe space into the night
