

# Princess

BENEE

I think I'll get you when it's hot  
I think I get you if I want  
I think I can get you if I want  
I think I could move you out my town

Treat me like the princess that I am  
Take it back, why would you even say that?

Looking at her when you should be lookin' at me  
Looking at me

Raving in elegance  
This place is crazy  
So I'll do as I please  
So sweet but also frightening  
Pardon my arrogance  
Don't take it personally  
Oh, so I see  
Strike me like solar lightning

Uh  
I can get you if I try  
If I couldn't, then you're blind  
Uh  
No, you'll never hide  
To the way you feel inside

Looking, looking, looking at me  
Walk into the room and I feel feisty  
Walk into the room with my devicy

She used to like my music 'fore I met her  
She used to like my music 'fore she met you

And I don't really care, but I'm not okay  
Wonder if we should go back to my place  
Didn't cop an invite to my party

I don't think I am the one for you  
I don't think I am the one for you

There is not a single thing that they could make me do  
That they could make me do

Now I'm  
Raving in elegance  
This place is crazy  
So I'll do as I please  
So sweet but also frightening  
Pardon my arrogance  
Don't take it personally  
Oh so I see  
Strike me like solar lightning

Uh  
I can get you if I try  
If I couldn't, then you're blind

Uh  
No, you'll never hide  
To the way you feel inside

Uh  
You can treat me like a princess  
You're the prince of mine  
Uh  
Gun to the head, baby, if one of us dies
