

Same Effect

BENEE

It's funny, I feel you poking at my heart
You said that what I say, it makes you laugh
How 'bout you come 'round and pick me up?
We'll joke around and talk 'bout real stuff

Don't sell yourself short
There's something about you
Can't explain but I can't live without you

Now I want you
I'm sick of being alone
Lying 'round here
And you're all that I want
The others, they don't have the same effect
Don't wanna be someone who you forget

You sent a letter
And I read every word
Nothing feels better
I melted when you called

Don't sell yourself short
There's something about you
Can't explain, but I can't live without you

Now I want you
I'm sick of being alone
Lying 'round here
And you're all that I want
The others, they don't have the same effect
Don't wanna be someone who you forget

Now I want you
I'm sick of being alone
Lying 'round here
And you're all that I want
The others, they don't have the same effect
Don't wanna be someone who you forget
