

## Soft Side

BENEÉ

I wanna see your soft side  
But only when the time's right  
And it's a shame you're in the limelight  
Makes it hard to catch your eyesight  
I wanna see your soft side  
But only when the time's right

I wanna know  
Everything there is about you  
I wanna try  
To understand your mind and how you  
Weave through the words you hide behind, I wanna try  
Baby, I wanna get inside, I wanna

Maybe I'm wrong, but I think that I have the power to  
Open up that spot it's not that hard to see  
I'm keen, you see through me  
Don't care 'bout what my friends think

My friends think that I've gone mad  
Say I should find someone a little less detached  
But I want something that I cannot have

I wanna see your soft side  
But only when the time's right  
And it's a shame you're in the limelight  
Makes it hard to catch your eye sight

I wanna see your soft side  
But only when the time's right  
And it's a shame you're in the limelight  
Makes it hard to catch your eye sight

I wanna know  
Everything there is about you  
I wanna try  
To understand your mind and how you  
Weave through the words you hide behind, I wanna try  
Baby, I wanna get inside, I wanna

I wanna know  
Everything there is about you  
I wanna try  
To understand your mind and how you  
Weave through the words you hide behind, I wanna try  
Baby, I wanna get inside, I wanna
