BENEÉ

I nearly married my mate in Vegas
I was looking for rings on Craigslist
We were taking it slow for ages
But I'm lovesick
You're contagious

Hey, brain!
What's on the mind?
Why did you blow up?
It's all in my phone
Confusing my love

Why would you put that in my mind, why would you bring it up?
Cover my eyes, cover my ears, now I'll cover my heart
Will I jump off the plane when it gets dark, when it gets hard?
Why would you put that in my mind, why would you bring it up?

Uh oh, I fell in love, what's the point?
Show me, I wanna know that I'm yours
Uh oh, I fell in love, what's the point?
Maybe I can't do love anymore

Hating pictures in my mind
I do this every time
The doubt I can't erase
I don't know what is mine
I do not care at all
I've got so much to hide
It doesn't matter why
It doesn't matter why

Hey you!
What are you worried about?
What's on your mind?
Could we work it out?

Why would you put that in my mind, why would you bring it up?
Cover my eyes, cover my ears, now I'll cover my heart
Will I jump off the plane when it gets dark, when it gets hard?
Why would you put that in my mind, why would you bring it up?

Uh oh, I fell in love, what's the point?
Show me, I wanna know that I'm yours
Uh oh, I fell in love, what's the point?
Maybe I can't do love anymore
