Wishful Thinking

BENEE

Not like I think about it night after night
You're name is echoing inside of my mind
Then I got to know you, oh false hopes rule
And then I opened, right up to you

This stupid act, that things aren't bad
We could never be like that

Live far away now
That's no joke
No way to reach you when I'm low

Lying around day dreaming
Wanting you now but that's wishful thinking
Lying around daydreaming
Wanting you now but that's wishful thinking

Hard to remember everything that you said
Won't let that pointless talk stay trapped in my head
Then I got to know you, oh false hopes rule
Those days are gone now, you left too soon

This stupid act, that things aren't bad
We could never be like that

Live far away now
That's no joke
No way to reach you when I'm low

Lying around day dreaming
Wanting you now but that's wishful thinking
Lying around daydreaming
Wanting you now but that's wishful thinking

Everything you said, makes sense to me right now
You were just straight scared, afraid it might work out
Everything you said, makes sense to me right now
You were just straight scared, afraid it might work out

Lying around day dreaming
Wanting you now but that's wishful thinking
Lying around daydreaming
Wanting you now but that's wishful thinking

Everything you said, you said
Makes sense to me right now

You were just straight scared, straight scared
Afraid it might work out

Everything you said, you said
Makes sense to me right now

You were just straight scared, straight scared
Afraid it might work out

Afraid it might work out
