

Aftermath

Benjamin Amaru

Are you still around?
I feel weird when we don't talk
Or did you head south?
Just let me know it's not the same
Or not the same when you're not around
And yeah I'm good
I got some cool things going on
Lots of things to do
Sometimes I stare out of the window
And I swear I think of you

You
It was you
I do still
Love you, girl

And I hope you are fine

You're still around
But it feels weird cause we don't talk
Sorry I called
I didn't plan to, that's a lie
Wanted to see if you'd pick up
I'm at the pier
I got some cool girl sitting here
And she's cute
I feel bad for asking her out
I don't know what I am doing

And laughing doesn't feel like laughing
All the times that you said you love me
And you
It was you
And dancing doesn't feel like dancing
All this time that I think you saved me
I do still
Love you, girl

I hope you are fine
