Don't say you wanna go somewhere else I
Wanna know how it feels just be with you
With you
No likes, no shares, be a cellphone
What's love, online there is real love too
You

Get close get tied on a screen now
Check scores check girls find real love
Real
High hopes is coming from the speakers
It will play if you wanna know the details too
Ah, you do

Does it feel right does it feel good?
Where you at, hit me up
Do you wanna get root hon?
Come here, come get into my chatroom
Rather had a little chat chat in my bedroom
Waste time get lost in your mind like
[?] lay down in the cover in the night
Stop there I find you don't mind
I post of bad hit
Does it feel right?

Get close get tied on a screen now
Check scores check girls real life is new
To you
High hopes is coming from the speakers
It will play if you wanna know the details too
Ah, you do

Don't say you wanna go somewhere else I
Wanna know how it feels just be with you
