

# closer somehow

Benjamin Amaru

Sometimes I see it then I don't  
Where do all the flowers grow, grow, grow  
We catch notions but we lose some in  
Heavy smoke

I was lost, yeah, I was falling  
Oh, I was staring and you kept calling  
And you guys better not stop calling  
Because I need you the most

We're singing  
And it feels like watching the sun go down  
And it feels like we're getting closer somehow  
And the crowd goes  
And we can't hold back  
Just don't let go  
If you stay by my side  
You will never feel wrong, no

Oh, I got plans for us, you know  
And I will try not to let go, go, go  
I wanna see you rise above all  
That heavy smoke

So we can dance around the sun  
We go as far as we can run  
And if you can't no more  
I carry you home

We're singing  
And it feels like watching the sun go down  
And it feels like we're getting closer somehow  
And the crowd goes  
And we can't hold back  
Just don't let go  
If you stay by my side  
You will never feel wrong, no

And it feels like watching the sun go down  
And it feels like we're getting closer somehow  
And we can't hold back  
Just don't let go  
If you stay by my side  
You will never feel wrong, no
