

Croptop In The Eye Of A Storm

Benjamin Amaru

And if I had to go
I'd turn away just very slow
Don't wanna miss anything
A little breeze in your hair
Look around, look at me
I'll swear you're bad now
Forever, I see
And when my eyes meet yours
Quiet, silence, head to toe
I'm shaking
For you
Like a thunder was born
Crop top in the eye of a storm
You got me
You do
Oh
A little more love and a little less time
Now

Just a little bit close never ever too far, no
Waving down your curse
Fingers on my nose
A little more love and a little less time
Now

And when our fingers cross
Hot times and a view from high above
Blood pressure fast
You turn the music off we'd like to hear the sound of us
Blood pressure fast
Then it turns in a full rage
Every drop like a snowflake
Got warm in a sea of sharks
And if I had to go now
I'd turn away very slow now
But do we end where we start

A little more love and a little less time
Now
Just a little bit close never ever too far, no
Waving down your curse
Fingers on my nose
A little more love and a little less time
Now

A little more love and a little less time
Now
Just a little bit close never ever too far, no
Waving down your curse
Fingers on my nose
A little more love and a little less time
Now

We don't really wanna be alone anymore
We don't really wanna be alone anymore
We don't really wanna be alone anymore
Oh oh

We don't really wanna be alone anymore
Mhm
We don't really wanna be alone anymore
We don't really wanna be alone anymore
We don't really wanna be alone anymore
Oh oh
We don't really wanna be alone anymore
Mhm

A little more love and a little less time
Now
Just a little bit close never ever too far, no
Waving down your curse
Fingers on my nose
A little more love and a little less time
Now
