

Dancing Alone Again

Benjamin Amaru

We were moving
Somewhere out there
You and I, girl

Hit the music
Making this work
Step by step

And I see you're doing
All that you can
To get close to a man

But I think I'm losing
My mind is fighting my heart

And now I'm dancing alone again
Over and over, the moves that I make
Are a lonely man's
Over and over, I move my body 'cause I...

Keep on moving
Never alone
But something's wrong

With the music
You are far away
You're gone

And I hear you calling
Everything is so far away
And I lose you again

My mind is fighting my heart

And now I'm dancing alone again
Over and over, the moves that I make
Are a lonely man's
Over and over, I move my body and I hear that...

You're calling my name through the crowd
But the music is all I can hear now
And I tried to hold on to your voice
But the music, it wants me to move on

Move left, move right
When I move to the side
I lose you
I lose you

Move left, move right
When I move to the side
I lose you
I lose you

And now I'm dancing alone again
Over and over, the moves that I make
Are a lonely man's

Over and over, I move my body and I hear that...

You're calling my name through the crowd
But the music is all I can hear now
And I tried to hold on to your voice
But the music, it wants me to move on

(Wants me to move on)

Move left, move right
When I move to the side
(Yeah, the music is all I can hear now)
I lose you
I lose you
(The music, it wants me to move on)
Move left, move right
When I move to the side
I lose you
I lose you
