**Benjamin Amaru**

Set Fire, we could really done for real  
Burned it, science let me show how I feel  
Only you need lovers, please don't prey for us  
Harder, harder, we crush

Sinners don't burn for real  
No fire can changes this what I feel, what I feel  
Sinners don't feel the same  
Get it out all day don't feel the pain, don't feel the pain  
Dead flowers we could bring it down for real  
Sent, problems, let me show how I feel  
Follwing deeper, please don't prey for us  
Crawling, crawling, we crush

Sinners don't burn for real  
No fire can changes this what I feel, what I feel  
Sinners don't feel the same  
Get it out all day don't feel the pain, don't feel the pain
