Auxiliary

Benjamin Clementine

I see our world is up in flames
The bond is not looking good babes
There is no need to be disdained
Questions we ask are twice the same

Takes who, takes what
Takes you and I to make this child smile
Said who, said what
Takes you and I to make this child smile

Cheer up oh babes won't you cheer up
Sit down and sing this song with us
Don't get caught looking in the mirror
We might forget to take a shower

Takes who, takes what
Takes you and I to make this child smile
Said who, said what
Takes you and I to make this child smile

Good thing about last year is today
Don't be scared, don't be scared
Best thing about today is not late
So don't be afraid, don't be afraid

We will survive
Takes you and I to make this child smile
We will survive
Takes you and I to make this child smile

Aye yay ya ya aye yay
Aye yay ya ya aye yay
Aye yay ya ya aye yay
Aye yay ya
